Co-living ventures spotting demand

[VIR](#)

Co-living models are trying to push through in the Vietnamese market, as more people struggle to achieve the dream of owning a private house of their own. Several real estate developers have created modern co-living services in which people share spaces with those of similar interests or jobs – and while this used to be common for students and other young adults, the models are also becoming more suitable for older people.

Emerging real estate trends in the 'new normal' in Ho Chi Minh City

[Tuoitrenews](#)

After many quiet months, the real estate market in Ho Chi Minh City is on the upswing and witnessing several new buyer trends as the year comes to a close. Vietnam's extended social distancing period dramatically impacted homebuyers' habits and priorities. While real estate remains an attractive investment channel, buyers are becoming more cautious about their spending, allowing investors to lead the way.

VN's economic conditions improving: WB

Vietnam's economic conditions continued to improve, with both industrial production and retail sales registered a third month of growth, said World Bank in the December edition of its Vietnam Macro Monitoring.
